

## TISBURY WATER WORKS

400 West Spring St., P.O. Box 84  
Vineyard Haven, MA 02568 · (508) 693-3100

# \* \* HYDRANT FLUSHING \* \*

The Tisbury Water Works will begin the annual flushing of hydrants on Sunday, March 31, 2013.

This program will ensure that all of our fire hydrants operate properly and improve water quality throughout town.

All flushing will begin at 7:00 P.M. and continue as late as 7:30 A.M.,  
Sunday through Friday evenings.

We estimate that the flushing of the Tisbury water system will require five days to complete.

Customers may notice a severe drop in pressure while the hydrants are flowing. You should not experience a total loss of water pressure. If you do lose all water, please call the Dukes County Communications Center at 508-693-1212 and they will contact the TWW crew.

Customers are advised that some discoloration of the water may occur if you draw water while we are flushing near your home. If this occurs you should wait until we are out of the area and then run cold water from the faucet nearest to the water meter for several minutes and it should clear up.

As a precaution, customers are urged to check their water for discoloration prior to washing laundry. Should a load of laundry be stained by rusty water, contact the Tisbury Water Works office for recommended cleaning instructions.

We appreciate your patience and cooperation. **Tisbury Water Works at 508-693-3100.**
